EH

“ *Memories.  
I don't believe time heals everything.  
It helps, it really does.  
After a while, the tears won't fall all the time.  
The memories won't consume your every thought anymore. You do get better, you'll smile and laugh again and you'll even have a lot of great days, but the memories are still there.  
You just learn to live with it, this is how things are now so you get used to it but that doesn't mean the memories ever go away, they are still deep in your soul.  
They still make you cry when you think about it too much still stops you in your tracks when something reminds you of them and you'll have those moments when your heart hurts really bad. I don't think time heals everything.  
Sure, it gets better.  
But it's a scar that never goes away.  
A broken bone that always aches on rainy days....  
Rest in Heaven, Daylen Lee Oatts 4/26/1993-01/10/2023*
